

Pipettor tips, 1000 Reach

03

S

- ART® self sealing barrier will not allow aerosols or liquids to pass, ensuring 100% protection against carry over and cross contamination
- Extended length prevents contamination by keeping the pipettor shaft from entering the sample vessel
- SoftFit™ design reduces hand fatigue and fits easily on 1mL pipettors
- MicroPoint™ design reduces surface area, which decreases sample retention

ART® 1000 Reach, with ART® filter

Pipettor tips, ergonomic, ERGO-G/ERGO-F

04

S

- Reduce strain and combat ergonomic injury
- Secure and consistent seals
- Less ejection force

Unique bi-fabricated wall tips create a strong, effective seal while requiring significantly lower tip insertion and tip ejection force. Aseptically produced.
