Freezers, ultra low temperature, Thermo Scientific Forma® 900 series

Thermo SCIENTIFIC

77

NEW

- Stress tested to operate efficiently at a temperature range of -50°C to -85°C
- Four interior compartment doors reduces cold air loss, improves temperature recovery after door closings
- Five door option available on request
- Cabinet insulation reduces power consumption, maintains temperature setpoint and prevents condensation
- Triple point silicone gasket seal helps ensure product protection, minimises ambient temperature and humidity migration, and provides an energy efficient thermal barrier
- Quiet operation

Interior is easy to clean and air filter is easy to access and change. Ergonomically-designed handles ease door opening. The centralised information centre is eye-level for at-a-glance monitoring. An array of accessories (e.g., digital data loggers, chart recorders, sample probes, inventory management systems, CO_2 and LN_2 back-ups) allow you to take full advantage of each freezer's maximum capacity and tailor the unit to your needs. Please contact Customer Service for details.
