

Disposable spatulas

Size-related designs to fit perfectly with standard 0.2, 0.5, 1.5/2.0, 15 and 50mL microtubes

Size-related designs to fit perfectly with standard 0.2, 0.5, 1.5/2.0, 15 and 50mL microtubes

- Ideal for dispensing or sample collection of powders or soft solids
- Twin function spatulas, with a spoon at one end and a hollow scoop or pick at the other
- Will not shatter when used with samples frozen in liquid nitrogen
- Hollow core minimises heat transfer — good for hot and cold liquids
- Antistatic, sterile and eco-friendly versions available
- Autoclavable and complies with FDA standards for food contact
- Made of virgin, food-grade polypropylene
- Disposable
