

# Features and Benefits

## SureOne Rack Features

- 1 Flush Fit Inserts sit flush with rack, allowing easy multichannel pipetting.
- 2 Recycle Logo molded into all rack components, allows recycling companies to properly recycle the plastic.
- 3 Notched Clasp designed to prop lid open for autoclave venting.
- 4 Sure Stack Lid rim prevents racks from sliding around when stacked and carted around a lab.
- 5 Safe Lock Latch allows for one-handed opening and closing ability and won't pop open when dropped.
- 6 Sure Snap design securely holds insert in place, preventing it from being lifted out while pipetting.
- 7 Flip-Lid can be either a hinged or lift-off lid; hinged format does not prevent use of a multichannel pipet.

## SureOne Insert Features

- 1 Contact Clip prevents unnecessary contact with the tips while clipping in inserts.
- 2 Lot Numbered Inserts for traceability include tip volume and Fisher Cat. No.
- 3 Indented Insert Holes inhibit tip movement, stabilizing them for multichannel work.
- 4 Rigid Inserts are all 96-well multichannel format, offering a robust non-pliable design providing secure seals on every tip.

## SureOne Reload Packaging Features

- 1 Product information displayed on box
- 2 Dust Flap prevents debris from contaminating the product
- 3 Finger Knockouts allow easy access to slide out product
- 4 Canyon Cut Package allows for easy tip insert removal
